SHORT BIO

Yael Gruenbaum-Cohen
Yael Gruenbaum-Cohen has nearly two decades of experience in healthcare, biotech, and venture investing. Before co-founding Entrée Bio, she was a Partner at aMoon, leading investments and pharma collaborations across therapeutics and enabling technologies. Yael previously served as General Manager at Medison Ventures, where she drove licensing deals and built industry-academia partnerships. Yael holds a DMD and a Ph.D. in molecular genetics from the Hebrew University and the Weizmann Institute, and she co-founded WE@HealthTech, an organization advancing female leadership in health technology.

FROM ACADEMIC DISCOVERY TO THERAPEUTIC IMPACT
